

Apple App Store Listing Information

Store Description	<p>This application provides assistance for specialty school instructors (martial arts, dancing, etc.) to stay on top of the performance of their students by providing a place to keep track of your student lesson schedules, how many lessons they have left in a package, what techniques they have been taught, and what their goals are for the future.</p> <p>The student information and schedules can be shared between devices, and the student lesson plans can be printed. You can even set a custom template to provide a general structure for each lesson.</p>
